

MOLDED FITTINGS

Overview : Kothari Molded fittings are manufactured with PVC Raw Material compound.

This compound is one of the most advanced ready made materials used & Having superior technical characteristics like hardness, strength, brightness, heat resistance, There is no need of Manual mixing of raw material ingredients.

AVAILABLE SIZES

Product Range : 20 mm to 160 mm

Pressure Rating : PN4, PN6, PN10

FEATURES AND BENEFITS

Benefits of Ready made Raw Material Compound :-

- ▶ Uniform Quality
- ▶ Excellent strength, Appearance & Durability
- ▶ Less Frictional Losses & High Flow Characteristics
- ▶ Excellent resistance to corrosion and Chemicals
- ▶ Virgin products as there is no mixing or manual production errors
