— IRRIGATION —

DRIP | SPRINKLER | AUTOMATION | MULCHING

DRIP UNIT

## Quick Coupling Valve (QCV)

### Features & benefits :

- Used in landscape & other irrigation systems for fast opening & closing of the valve.
- Available in high grade plastic material.
- Quick lock is provided to make leakage free connection.
- Maximum working pressure of up to 10kg/cm<sup>2</sup>.
- This is the normally closed valve which is opens after inserting key.
- We can attach the sprinkler or hose at the top of the key.
- The portability of sprinklers & hose pipe can be maintained with this by keeping the design accuracy.
- Very useful for irrigation at public places.
- **Available Sizes** : Available in 0.75" & 1" sizes
