

## K-Smart Emitting Pipe

(Flat Thinwall Non PC Dripline) **Features & benefits:**

- Manufactured with advanced Israeli technology.
- Large inlet filter & turbulent flow pattern of drippers designed for clog resistant features.
- Manufactured with international standards : 18mil
- Smooth inner surface minimizes friction losses.
- Excellent flow characteristics.
- For irrigation of closed spacing crops like vegetables, medicinal plants & other short duration crops.

### Technical specifications :

Diameters	12mm / 16mm / 20 mm
Thickness	18 mil
Flow rate	1.2 lph / 2 lph / 4 lph
Operating Pressure	1 kg/cm <sup>2</sup>
Roll Length	12mm-1000 mtr, 16mm-1000 mtr & 20mm-500 mtr
Spacing	20, 30, 40, 50, 60cm
