

K-Super Emitting Pipe

(Gol Thinwall Non PC Dripline) **Features &**

Benefits :

- Manufactured with advanced Israeli technology.
- Smooth inner surface minimizes friction losses.
- Excellent flow characteristics.
- Suitable for varying water conditions.
- Large surface inlet filters in every dripper.
- Gol Dripper designed with wide labyrinth.
- For Irrigation of closed spacing crops like various types of vegetables, cotton, medicinal plants & other short duration close spacing seasonal crops.

Technical Specifications :

Diameters	16mm / 20mm
Thickness	16mm - 22 mil, 20mm - 26
Flow rate	mil 2 lph / 4 lph
Operating pressure	1 kg/cm ²
Roll length	16mm-300 mtr, 20mm- 250 mtr
Spacing	20, 30, 40, 50, 60cm
