

Water Meter

Features & benefits :

- Cast iron body designed to 16 kg/cm² pressure.
- Interchangeable measuring element.
- Magnetic drive water meter covers a very wide flow range.
- Magnetic transmission keeps the register completely separate from water.
- Paddle wheel design prevents jamming & damage due to solid debris.
- Can be installed in any orientation.
- Designed pulse rate of 100 & 1000 ltr.

Applications :

- Water measuring in volumetric automation irrigation system.

Available sizes : 2" to 12" size with minimum head loss.

Technical specifications:

Size	2"(50mm)	3"(80mm)	4"(100mm)	5"(125mm)	6"(150mm)
Flow (m ³ /hr.)	35.0	75.0	125.0	175.0	250.0
